Subject Re: IDS Draft for 57718US002 - Please reply ASAP

Paul,

Your proposal is fine by me, however, I am currently sifting through the 1000 or so patents we have captured in the 'freedom to practice' search that relates to the disp. nozzle i.e. FN57718.

We may well find there are more references to add in the not too distant future.

I'll send on what I can - as soon as I can.

Cheers,
Steve

Subject Re: IDS Draft for 57718US002 - Please reply ASAP

Steve,

Re. Stephanie's 57718US002-1449. I presume these references were from the original art search and/or the PCT Examiner's search report, so I would go along with them.

I suggest the references cited in 58848, 59374 and 59375 should also be included in the 57718 IDS. These are marked "X" in the PPS Reference Index - 1449s:

Do you agree?

Subject IDS Draft for 57718US002 - Please reply ASAP

Hi Paul,

Please review the attached IDS draft for the subject application and let me know if any of the references should be deleted and/or if you have any to add to the list. If possible, please reply ASAP since it is due later this month and I may need to get a few translations before then.
